## PROFESSIONAL SUMMARY

Motivated BCA 2nd-year student at MIET Kumaon with a growing foundation in Java, Python, web development, and programming concepts. Interested in software development, web technologies, and emerging technologies. Currently developing practical skills through academic work and personal projects, including a Python-based voice assistant. Seeking an internship opportunity to apply technical knowledge, gain real-world experience, and contribute to practical software projects.

## TECHNICAL SKILLS

- Programming Languages: Java, Python
  - Web Development: HTML, CSS, JavaScript
  - Tools & Technologies: GitHub, Visual Studio Code, Canva
  - Programming Concepts: Object-Oriented Programming (OOP), Basic Data Structures, Basic Database Concepts
- 

## PROJECT

- Personal AI Assistant — Jarvis
- Technology: Python | Type: Personal Project | Year: 2026
  - Developed a beginner-level voice-based personal assistant using Python.
  - Implemented voice input and voice output functionality.
  - Worked with Python libraries for speech recognition and voice interaction.
  - Implemented basic voice-command functionality for interacting with the assistant.
  - Currently exploring AI-based conversational capabilities to improve the assistant's functionality.

## ADDITIONAL INFORMATION

Career Interest: Software Development, Web Development, Emerging Technologies
